

Take control of your tapes and shots

eBUS LOGIT

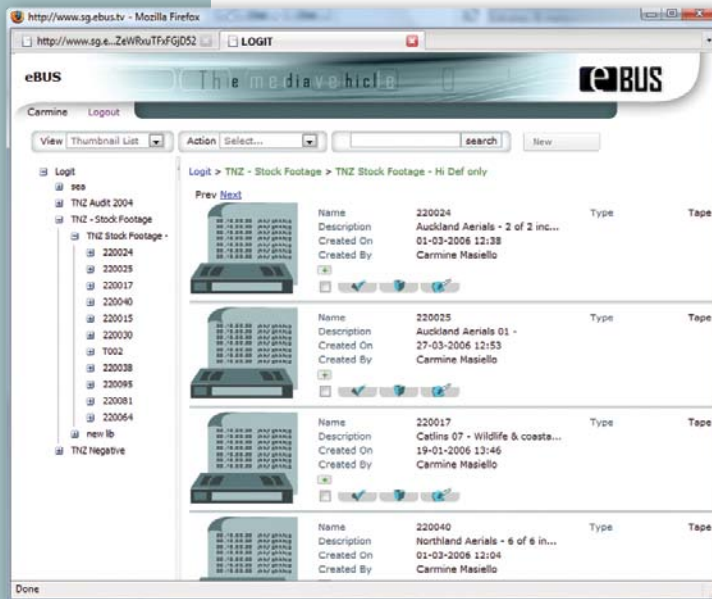

Intelligent library indexing, retrieval and publishing

Jake Southall
Editor
Mushroom Pictures

"Great system. Love it. A big improvement on basic text entry with Word or Excel. Very handy. Logged in fine. Imported perfectly into FCP. Excellent."

Andrew Shaw
NZ Idol Exec Producer
South Pacific Pictures

"It's a very good system. Without Logit we couldn't have turned the show around as quickly as we were able to."

eBUS LOGIT is ideal for:

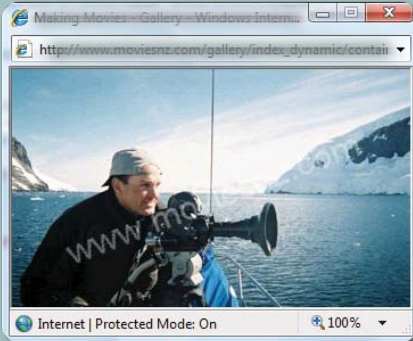

- Stock footage
- Production companies
- Broadcast Media libraries
- Service companies
- Larger enterprise use
- Government organizations

eBUS LOGIT:

- Simplifies the logging and management of tapes and shots library
- Enables cost saving and revenue opportunities by repurposing archive material
- Compatible with the main industry standards (e.g. Final Cut Pro and Avid)
- Preview and organize the source material directly online without hiring an editor, reducing editing time and cost

eBUS LOGIT

Intelligent library indexing, retrieval and publishing

eBUS LOGIT features:

- Client branded shots & tapes reports
- Final Cut, Avid EDL import/export
- Export to PDF
- Custom metadata for libraries, tapes and shots
- Online Logging function
- Allow third parties access to specific shots or tapes
- Public search for stock footage applications
- Repurposing tools
- Proxy quality of higher quality material
- Integration with eBUS Delivery and Collaboration tools

eBUS LOGIT

In government or large enterprise environments, the eBUS Logit user interface allows anyone having access permissions to immediately retrieve valuable video material to use in new campaign or corporate communication.

eBUS LOGIT

A custom version of Logit is specifically designed for Stock footage applications. Production companies can select at shot level the material to publish on a public web site to sell under license or royalty free models. Custom metadata allow simplifying the search of specific images or bloopers and the search engine can be personalized for internal and public use.

With offices in New Zealand and Singapore, and media servers around the world, eBUS offers a unique range of highly integrated and intuitive digital asset management, collaboration and delivery tools aimed at the advertising, film/video production and broadcast industries.
